A perfect gift for fathers and sons, and anyone who dreams of the secret hideaway in the trees. The most gorgeously produced, comprehensive showcase of treehouses, including some playhouses. Based on their beautifully crafted *The Treehouse Book*, Peter and Judy Nelson and renowned editor and designer David Larkin have compiled in this calendar twelve of the most fascinating and imaginative livable treehouses in the United States. The architects and homeowners of these houses have achieved the near impossible by allowing what has been thought of as fantasy to become feasible architectural works of art. Universe published the book on this quintessentially American phenomenon which represents five years of research and features all new material from the team whose last book on treehouses - published in 1994 - sold over 100,000 copies.
