Knowledge - throughout the ages it has been sought after by many. From the dawn of time, God has given mankind the knowledge they need, without which humanity would have floundered in ignorance and been lost in darkness forever. Truth and Science is an interpretation of historical facts, discoveries, and philosophies from an LDS perspective. This book takes a close look at scientific advances through history and compares them to corresponding spiritual advances. It also makes a case for the need for spiritual sensitivity when searching for scientific answers. With its careful mix of the spiritual and the secular, readers will find Truth and Science to be both informative and enlightening.
