This report describes a HITEC evaluation designed to determine the basic capabilities and limitations of the Geo-Con VERT Wall for use as a technically viable permanent excavation support retaining wall system. The evaluation was conducted based on design, construction, performance, and quality assurance information outlined in the HITEC Protocol. The Geo-Con VERT Wall System is an in-situ retaining wall system intended as an alternative to other types of cut walls such as soldier pile and anchored retaining walls. Geo-Con VERT Wall System is comprised of: deep soil mix columns consisting of overlapping or tangent soil-cement columns along the front face backed up by tangent rows of overlapping soil-cement columns; a soil-cement relieving platform overtop the columns; steel beams embedded in the front face soil-cement columns for support of the permanent facing; and permanent facing consisting of precast, reinforced concrete panels or reinforced cast-in-place concrete. The relieving platform is intended to provide internal stability by tying the soil-mix columns together and transferring the load to the bottom of the columns.

### **From reader reviews:**

#### **Charles Grove:**

The book Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) can give more knowledge and also the precise product information about everything you want. So just why must we leave a very important thing like a book Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002)? A few of you have a different opinion about guide. But one aim that book can give many info for us. It is absolutely suitable. Right now, try to closer together with your book. Knowledge or info that you take for that, it is possible to give for each other; you are able to share all of these. Book Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) has simple shape nevertheless, you know: it has great and massive function for you. You can look the enormous world by wide open and read a reserve. So it is very wonderful.

#### **Shawn Hunter:**

The event that you get from Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) is the more deep you looking the information that hide inside the words the more you get serious about reading it. It does not mean that this book is hard to be aware of but Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) giving you thrill feeling of reading. The author conveys their point in specific way that can be understood through anyone who read that because the author of this reserve is well-known enough. This kind of book also makes your personal vocabulary increase well. That makes it easy to understand then can go to you, both in printed or e-book style are available. We propose you for having this Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) instantly.

#### **Lana Alvis:**

The actual book Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) will bring that you the new experience of reading the book. The author style to describe the idea is very unique. If you try to find new book you just read, this book very ideal to you. The book Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) is much recommended to you to read. You can also get the e-book from your official web site, so you can quickly to read the book.

#### **James Collins:**

As we know that book is important thing to add our understanding for everything. By a reserve we can know everything you want. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This guide Evaluation of the Geo-Con Vert Wall System (Technical Evaluation Report: CERF Report 40607, April 2002) was filled about science. Spend your time to add your knowledge about your technology competence. Some people has various feel when they reading the book. If you know

how big benefit from a book, you can truly feel enjoy to read a reserve. In the modern era like now, many ways to get book that you wanted.
