No garden is too small for a tree, and many are large enough to accommodate an orchard or alle of small trees. *Small-Tree Gardens*, the latest book in our Garden Design series, presents a variety of garden projects featuring smaller trees from a silvery six-foot birch to a fragrant pine-apple guava tree. Hazel White explains how designers use trees in the garden to create focal points, walls and ceilings, corridors, screens, and frames. Each of the 25 projects is illustrated with color photographs and includes step-by-step directions. With detailed information on everything from soil preparation to pruning, whitewashing trunks to topiary sculpting, *Small-Tree Gardens* is an indispensable guide and inspiration for novice and practiced gardeners alike.
