The study of group actions on manifolds is the meeting ground of a variety of mathematical areas. In particular, interesting geometric insights can be obtained by applying measure-theoretic techniques. This book provides an introduction to some of the important methods, major developments, and open problems on the subject. It is slightly expanded from lectures given by Zimmer at the CBMS conference at the University of Minnesota. The main text presents a perspective on the field as it was at that time. Comments at the end of each chapter provide selected suggestions for further reading, including references to recent developments.

**From reader reviews:**

**Theodore May:**

The book Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) can give more knowledge and also the precise product information about everything you want. So just why must we leave the good thing like a book Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics)? A number of you have a different opinion about book. But one aim which book can give many info for us. It is absolutely proper. Right now, try to closer using your book. Knowledge or info that you take for that, you may give for each other; you may share all of these. Book Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) has simple shape nevertheless, you know: it has great and large function for you. You can search the enormous world by start and read a guide. So it is very wonderful.

**Willene Choate:**

This Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) book is simply not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is usually information inside this book incredible fresh, you will get information which is getting deeper you actually read a lot of information you will get. This kind of Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) without we understand teach the one who reading it become critical in pondering and analyzing. Don't become worry Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) can bring whenever you are and not make your case space or bookshelves' turn out to be full because you can have it inside your lovely laptop even telephone. This Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) having good arrangement in word as well as layout, so you will not really feel uninterested in reading.

**Frederick Rothman:**

Nowadays reading books become more and more than want or need but also be a life style. This reading routine give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book this improve your knowledge and information. The info you get based on what kind of publication you read, if you want get more knowledge just go with training books but if you want feel happy read one together with theme for entertaining such as comic or novel. Typically the Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences

June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) is kind of reserve which is giving the reader erratic experience.

**Christopher McCormick:**

Spent a free time for you to be fun activity to perform! A lot of people spent their sparetime with their family, or their very own friends. Usually they accomplishing activity like watching television, going to beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? Could be reading a book can be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to try look for book, may be the e-book untitled Ergodic Theory, Groups, and Geometry: Nsf-cbms Regional Research Conferences in the Mathematical Sciences June 22-26, 1998 University of Minnesota (Cbms Regional Conference Series in Mathematics) can be good book to read. May be it might be best activity to you.
