Debtor and Creditor: Including Bankruptcy, Containing the Text of the Federal Bankruptcy Law, Vol. 7 (Classic Reprint) Alfred William Bays

In this volume, an attempt has been made to gather the chief law relating to creditors and debtors in relation to the rights of each which spring out of the contract or the general law. The different sorts and forms of indebtedness, the important subject of liens, the payment, settlement and compromise of the debt, the manner of collecting a debt through the means of legal machinery and, finally, the law of bankruptcy under the National Bankruptcy Act, are all considered. The volume ought to be helpful to business men in a very practical way. The author is not familiar with any other volume which attempts either in a small or large way to bring together the law relating to debtor and creditor in its various aspects. In a few instances, the logical order as first worked out by the author has given way to considerations of convenience and space; for instance, the law of assignments for the benefit of creditors has been placed wholly in the chapter upon fraudulent conveyances; and a section in reference to interest and usury has been placed in the chapter on payment. The National Bankruptcy Law is set out in Appendix
