#### **Carmen Bell:**

Reading a guide tends to be new life style in this particular era globalization. With reading you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their own reader with their story or perhaps their experience. Not only situation that share in the publications. But also they write about the knowledge about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that you can get now. The authors these days always try to improve their expertise in writing, they also doing some research before they write with their book. One of them is this Polyploid and Hybrid Genomics.

#### **Irene Navarro:**

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just very little students that has reading's soul or real their pastime. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Polyploid and Hybrid Genomics can make you sense more interested to read.
