Patent Law, 4th Edition (Aspen Student Treatise Series) (Aspen Treatise)

Janice M. Mueller

Patent Law, 4th Edition (Aspen Student Treatise Series) (Aspen Treatise) Janice M. Mueller
Patent Law delivers a succinct, single-volume explanation of the principal legal doctrines, key judicial authority, governing statutes, and guiding policy considerations in obtaining and enforcing a U.S. patent. The text breaks down the often abstract and complex statutes and cases into understandable pieces. A final chapter addresses central aspects of international patent law as they affect U.S. practice. Written at an appropriate level for students with or without technical backgrounds, **Patent Law** is suitable for use with any patent casebook. A valuable reference for students who go on to careers in IP law, the text is helpful in preparing students who choose to take the Patent Office's registration exam. Patent law terms of art are highlighted in boldface type throughout the text and defined in a glossary for quick reference. Visual aids and a sample patent with its prosecution history help students through the course.

The **Fourth Edition** introduces a new chapter explaining the complex America Invents Act of 2011, the most significant change in U.S. patent law in years. The updated text includes key recent Supreme Court cases and Federal Circuit cases such as *Mayo v. Prometheus* (U.S. 2012) on patent-eligible subject matter and *Therasense v. Becton Dickinson* (Fed. Cir. 2011) (*en banc*) on inequitable conduct.
