Electronic Payment Systems (Artech House Computer Science Library) Donal O'Mahony, Hitesh Tewari, Michael Peirce

As the Internet continues to transform commerce, the method of payment is critical to conducting business across the network. This work offers a survey of the major electronic payment systems available, from a technical user perspective. Requiring a basic familiarity with computing and networking, the book covers various Internet payment systems including E-cash, SET (secure electronic transactions), FSTC electronic check project, and Millicent. It also identifies the properties unique to various systems, provides a working knowledge of the necessary cryptography, and explains the protocols involved.
