The Trinity and Culture (American University Studies) Charles Sherrard MacKenzie

The Trinity And Culture is a study of how human cultures relate to transcendence in general and to the Triune God in particular. It surveys the church's understanding of God as Triune. It describes some of the implications which Trinitarian perspectives and values have for culture. It explores the models and mental constructs which Augustine, Pascal and others have developed to express their understandings of the relation of the Triune God to human existence. It suggests that a renewed understanding of the Trinity can provide the church with a paradigm to guide humanity in building its cultures.
