An Interregional Expert Meeting on the Use of Satellite Imaging RADAR and Thematic Mapping in Natural Resources Development, organized by the Economic and Social Development Center of the German Foundation for International Development - DSE - in co-operation with the United Nations Department of Technical Co-operation for Development - DTCD - was held in Berlin (West) from 21 November to 4 December 1984. As a result of this meeting, the participants made the following recommendations: A. REMOTE SENSING SYSTEMS AND AVAILABILITY OF DATA 1. Acquisition Platforms and their Continuity The participants expressed concern over the insecurity which clouds the future of orbital remote sensing platforms - the U. S. Landsat series should be continued, if at all possible. The planned initial ten-year operational lifetime of SPOT is encouraging and received support. ESA/ERS 1, Japan J-ERS 1 and Canada's RADARSAT programmes should be given full implementation commitment, as soon as possible, and plans should be developed for system continuity. The participants noted that development of national and regional remote sensing programmes in developing nations, and establishment and upgrading of appropriate ground receiving stations for these systems depends critically on the prospect of platform continuity. vii SATELLITE REMOTE SENSING FOR RESOURCES DEVELOPMENT 2. Future Developments (a) Future developments in microwave remote sensing from space should be encouraged so as to circumvent, among others, the problem of cloud cover and to facilitate extension of application areas.

### **From reader reviews:**

#### **Leigh Weimer:**

As people who live in the actual modest era should be upgrade about what going on or facts even knowledge to make all of them keep up with the era which is always change and make progress. Some of you maybe will probably update themselves by studying books. It is a good choice for you personally but the problems coming to you actually is you don't know what type you should start with. This Satellite Remote Sensing for Resources Development is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and wish in this era.

#### **Jetta Butler:**

The reason why? Because this Satellite Remote Sensing for Resources Development is an unordinary book that the inside of the e-book waiting for you to snap it but latter it will shock you with the secret the item inside. Reading this book alongside it was fantastic author who all write the book in such awesome way makes the content inside easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you because of not hesitating having this anymore or you going to regret it. This unique book will give you a lot of benefits than the other book have got such as help improving your proficiency and your critical thinking technique. So , still want to hesitate having that book? If I ended up you I will go to the e-book store hurriedly.

#### **Louise Perez:**

Reading can called head hangout, why? Because when you are reading a book specifically book entitled Satellite Remote Sensing for Resources Development your thoughts will drift away trough every dimension, wandering in every aspect that maybe unfamiliar for but surely might be your mind friends. Imaging every single word written in a e-book then become one application form conclusion and explanation that maybe you never get ahead of. The Satellite Remote Sensing for Resources Development giving you an additional experience more than blown away your brain but also giving you useful information for your better life within this era. So now let us show you the relaxing pattern is your body and mind is going to be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary paying spare time activity?

#### **Lillie Rose:**

Is it a person who having spare time after that spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This Satellite Remote Sensing for Resources Development can be the answer, oh how comes? The new book you know. You are so out of date, spending your time by reading in this brand new era is common not a geek activity. So what these books have than the others?
