100 Business Secrets (Top 100 Business Secrets how to change your life) Vahagn Dilbaryan

From the author - There was a time I thought hard about why some people change their lives and achieve great success while most others do not. And I thought about how to join this small group of people. These reflections led me to consider the path of my life. I know that many of you want to have your business or a good career, but you face the most difficult problem – what to do? I faced the same problem a few years ago and started to think about how to change my life, how to **achieve success**, and what successful people do that others do not. And I found out that everything starts with a goal: When you have a clear goal, you start thinking of ways to reach it. And, indeed, when I had a clear goal, I started to think about methods to achieve the goal. What are these methods? One of the most effective ways, of course, is to study the lives of successful people, and I decided to explore the lives of hundreds of successful people from different fields, from business to politics. I started reading: I read a lot. I was immersed in another world, a world of winners, a world of business and marketing, a world in which competition allows only the fastest, smartest, strongest, and most flexible to win - a world, finally, where I wanted to be. I studied the lives of many successful entrepreneurs - their business strategies, the right and wrong decisions they made, their thoughts, applied techniques, and innovations, in a nutshell, everything - and, as a result, I “was armed” with a lot of options to apply in different situations. This knowledge gave me more self-confidence. It generated new ideas in me that changed my life and became the basis of my **success**. I enjoy accumulating knowledge and then sharing it. **100 Business Secrets** presents the insights and advice I have gathered over the years, along with my own thoughts and experiences, since I’m also involved in sales and marketing. I have introduced the most interesting and crucial stages of the lives of many successful people, as well as a part of my success story, to demonstrate how to achieve success in a short period of time. The book comprises 4 parts, each of which includes 25 business secrets that introduce influential businessmen, marketing techniques, and motivational stories. It took me almost three years to write this book, during which time I read more than 250 books. That is, I read 7 books a month. This was not so much the result of hard work as a goal that became one of the most important investments of my life. Each person presented in the book has been a mentor for me, a person who gave me something most valuable – knowledge. All this was rather time-consuming, but you are given the chance to save both your money and time by reading and getting to know **100 practical ways, methods, tools, strategies, and secrets that can change your life and build your success**. Do you want to reach your goal? If yes, **100 Business Secrets** will give you the practical tools to help you on your journey. And now it’s in front of you. **Enjoy the book.**
