Vico and Providence (Emory Vico Studies) Maeve Edith Albano

Maeve Albano's study opens with a chapter on Vichian epistemology, which she uses as a base from which «to clarify epistemological issues in the philosophy of human culture and art, the philosophy of science, and the philosophy of history.» Albano's work contributes, as Donald Phillip Verene observes in his foreword, both to the scholarly tradition that has opened up Vico's thought as important for our time and to the larger problem of Vico's originality in his conception of knowledge.
