In 2008 the global economy took a hit almost as big as the stock market crash of 1929. Now, years later, the American economy has still not recovered and over 12 million people are still unemployed. Is it possible that the global economy will never recover? Could we be facing another Great Depression in the 21st century? That, indeed, is the situation facing America in 2032 and a quiet desperation has taken hold of the countless millions living on the streets or under them. A global cabal of ultra-wealthy individuals and corporations has managed to reduce national governments to impotence. No one in a position of power has the actual power or the actual will to stop the spreading epidemic of crushing poverty. That is until Colonel Matthew Williams has a debilitating stroke and decides he must find a greater purpose in his life. The leader of military campaigns against the drug lords in Peru and Guatemala, he is a hero in the eyes of most Americans. He coined the phrase "...regime change - done right..." "When The Bricks Begin To Crumble" is the story of how a single person with some hi-tech help attempts to turn the world system on its head. How do you get the world's most powerful people to do something they don't want to do? Well, when the bricks that comprise the international financial system begin to crumble - all you have to do is give them one big shake...
