Illustrating Fashion: Concept to Creation Steven Stipelman

This beautifully illustrated text provides a step-by-step approach to drawing the basic fashion figure, identifying the elements of a garment, and discussing the various techniques used to render fashion illustration. The book also benefits the advanced user by its exploration of concepts such as manipulating the figure, drawing draped garments, and creating flats. Using designer garments, Stipelman helps the student understand a specific concept, the designer, and the garment advanced techniques, of their own talents and goals, and a glimmer of their own personal style.
