Radar Target Characteristics Measurement and Applications Lew Yu. Astanin, Alexander A. Kostylev, Julius S. Zinovjev, Alexander Ya. Pasmurov

This volume investigates some of the most modern techniques of radar signal scattering. The book also explores: description methods of radar design; original methods of measurement of local responses by inverse synthesis and radioholoraphy; standard statistical data-processing techniques; discussion of the original idea of UWB signal adaptation; principles and techniques of target modelling, simulation and multidimensional imaging of radar targets; and methods of target classification and recognition.
