## **In the Company of Animals: A Study of Human-Animal Relationships** James Serpell

In the Company of Animals is an original and very readable study of human attitudes to the natural world. It contrasts the way we love some animals while ruthlessly exploiting others; it provides a detailed and fascinating account of ways in which animal companionship can influence our health; and it provides a key to understanding the moral contradictions inherent in our treatment of animals and nature. Its scope encompasses history, anthropology, and animal and human psychology. Along the way, the author uncovers a fascinating trail of insights and myths about our relationship with the species with which we share the planet. James Serpell is the editor of *The Domestic Dog: Its Evolution, Behavior and Interactions With People* (CUP, 1995).
