We Love Art Class!: Analyze, Compare, Create, and Compose Shapes (Infomax Common Core Math Readers: Level D) Seth Nelson

Geometry skills are learned from an early age, and readers build upon those first geometry lessons with topics like describing objects using the names of shapes, identifying both two-dimensional and three-dimensional shapes, and composing shapes. Readers are able to explore these essential concepts independently through easy-to-follow text and colorful images of both new and familiar shapes. The skills of analyzing and comparing both two-dimensional and three-dimensional shapes are presented in a fun art class setting. The text directly addresses standard K.G.B.4 of the Common Core State Standards for Mathematics.
